

reno

Experience Design.

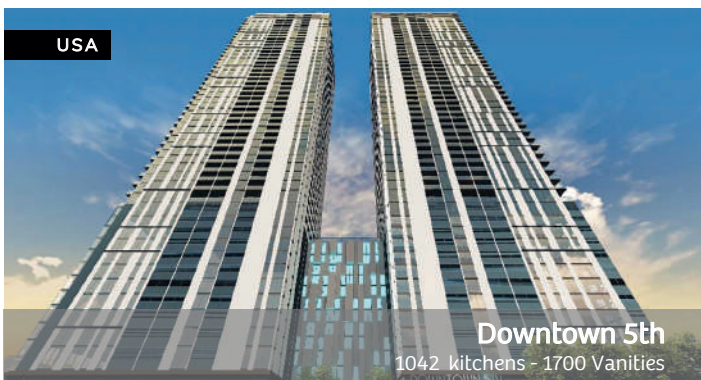

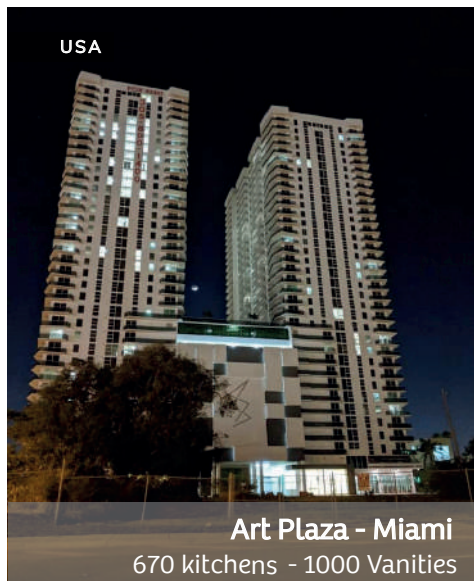

With more than 60 years of experience in the market, Reno Furnishings stands out as a specialist in the sector of design and manufacture of kitchen furnishings, dressing rooms and cabinets. We work with high quality products, with the best details in market. Our products are factory direct, which allows us to better cost structure and greater control of the whole process. This condition gives us the possibility to offer you a proposal that fits exactly to the needs of your project.

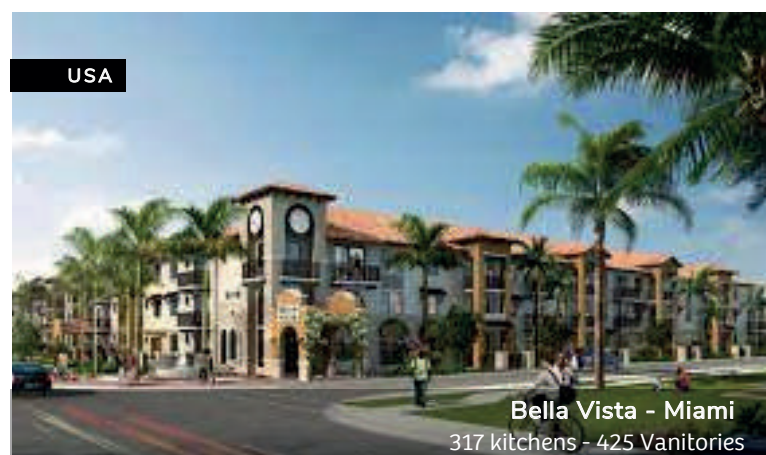

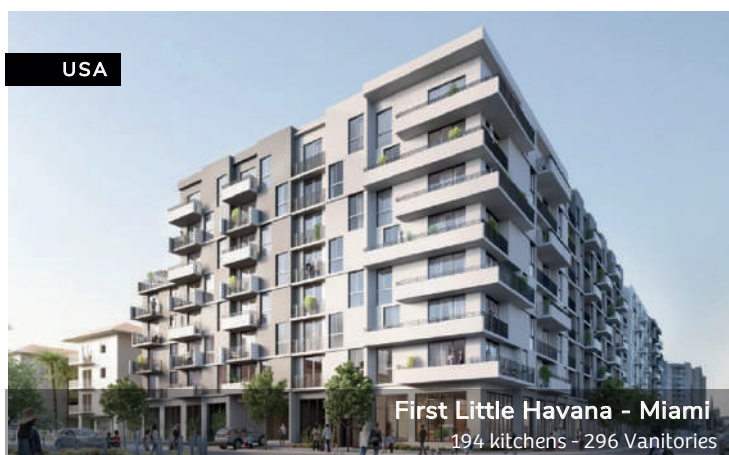

Our experience in the market and our trajectory of works support our work, having installed our products in several countries in Latin America, United States and Spain.
